

## **Regulatory & Safety Associate Belgium/Luxembourg**

### **Your role:**

Ready to join our Belgian affiliate? We are looking for a Regulatory and Safety Associate. You will perform as the local Business partner to different stakeholders of the local organization for Regulatory and Pharmacovigilance (PV) aspects. An outstanding possibility, combining the expertise of both. You will be responsible for key regulatory activity, including any required Health Authority interactions for our organization, to ensure maintenance of Marketing Authorizations for the company's product portfolio. Tasks will be the life cycle management of the marketed product as well as registration of new compounds, including possible Early Access Programs for new assets. You will act as a point of contact for Health Authorities to maintain close relationships.

The PV activities in Belgium are embedded in the Patient Safety Center BeNeLux. You will ensure that individual case safety reports from the Belgian market are appropriately processed and followed up. You are the contact point for all PV-related requests from cross-functions. You maintain the vital documentation of the PV system and act as the nominated person for PV towards the Belgian Health Authority. You will report within the Regulatory organization with a close alignment of the Patient Safety Center Manager. Further, you will collaborate closely with the Global Organizations as well as the cross-functional teams (local Management, QA, Medical Affairs, Market Access, strategic partners, Business Unit).

## Who you are:

- You completed a master's degree in pharmacy or a related scientific subject
- You have at least 4 years of experience in the pharmaceutical industry and have the technical regulatory knowledge of local regulatory requirements. First experience with local / EU GVP requirements is valuable
- Experience and knowledge in review of promotional material would be an asset
- You understand business needs, think strategically, and develop risk mitigation strategies
- Excellent English and local language, especially in Dutch and French (both oral and written)
- You are a standout colleague with a high level of dedication and a strong willingness to perform.

## What we offer:

With us, there are always opportunities to break new ground. We empower you to fulfil your ambitions, and our diverse businesses offer various career moves to seek new horizons. We trust you with responsibility early on and support you to draw your own career map that is responsive to your aspirations and priorities in life. Join us and bring your curiosity to life!
